

Micro DVR

First Witness Video has taken covert video to a new level! Combining ordinary commercial and residential housings with our stealthy Micro DVR, results in unprecedented video quality. This DVR eliminates interference issues by recording straight to a standard SD memory card. Through simple software playback with a built-in AVI converter, the Micro DVR offers worry-free performance and mission critical reliability.

FEATURES:

- Motion-activated recording in MPEG-4 quality
- Hard disk drive overwrite option
- Pre and post recording at 30fps
- On screen display for menu setups
- DVR viewer software
- Convenient remote control for setup
